dealers throughout the territory, just as there have always been farm implement dealers, and, in fact, they will be much more necessary until customers in general become more capable of distinguishing quality of cars manufactured.

The condition of the Omaha market is not depending on credit, the great ruination of the eastern and western motor car business. It is not burdened with an over-supply of second hand cars as it is on each side nearer the coasts, and many other difficulties are experienced outside of the Nebraska-Iowa territory which can be avoided in each locality or over the territory in general by each dealer planning his success to spread over the future and not hope to retire on easy street with one season's business.

TEN YEARS AGO
From the Files of The Alliance
Herald of March 9, 1905

Sanford Smith, the colored inmate of the county jail who plead guilty to the charge of housebreaking two weeks ago, escaped Monday night, Tuesday night about 10 o'clock the coon came back and asked to be admitted to the jail. When Sheriff Reed arrived the colored man was toasting his shins by a comfortable fire.

The exhibition of work performed by the scholars of the Alliance schools last Friday and Saturday at the city hall drew large crowds. A considerable downpour of rain

Monday night visited this section of the state and for a while it looked as though the winter was over, but the following day the landscape was covered with a light coat of frost and snow, reminding us that winter was still reposing in the lap of spring.

C. A. Newberry of this city was granted a patent last week for a tank heating furnace. Mr. Newberry has been granted several patents in the past and this new device is considered of as great value as those now holding an important place in the inventive world.

Roy Beckwith, Art Wiker, Lou Suprise, Wayne Zediker, George Dietlein and W. O. Barnes strapped on their artillery yesterday and went down to the Crescent ranch, where they will make life a burden to the duck

that infest that region at this season.

Pete Watson, the wolf catcher, came down from Marsland Friday on 46 to attend the Isham Brothers' horse sale here on Saturday. Pete has retired from the hunting business now, and lives on the old Larson place up on Whistle Creek where he has about three hundred head of stock, but strange to say, he doesn't own a dog. He says he has served his time killing wolves and is getting too old to get around as he used to in the old times when the country was new.
